“Darkness cannot drive out darkness; only light can do that. Hate cannot drive out hate; only love can do that.”~ Martin Luther King Jr.

The sun outshines the moon,

The dark will turn to light soon.

But without the moon there would be no peace,

Without the salt what's the point in sweets.

North and north magnets repel ,

Hate and Hate only brings hell.

Kill them with kindness he preaches.

Hate will continue without love, he teaches.

What is the benefit of anger?

Without love, you can only bring danger.

It is pointless to always despise
The power of love will open your eyes.
Love can create tranquility,
And every person has that ability.

All it takes is a simple smile,
That alone could get you a mile.
Show a little love is all that's needed,
Don't be rude and don't be concided.

If no one overpowers the hate, it will remain,
And the sun will never outshine the rain.
But with that little bit of love,
You will always rise far above.
And hate will be defeated,
And MLK's task will be completed.

Darkness is the lack of light,
And love is always the stronger fight.
Only light can make darkness less dark,
Only love will leave a greater mark.
Hate cannot get hate out of others,
Only love has those powers.
Hate will continue if it stays unchallenged,
But we know love is a better way to get things managed.

Love everyone for who they are,
Whether they are the underdog or the shining star.
Doesn't matter if they're Black, white, big, or small,
Whether they are short and stout or big and tall.

Hate will get you no where on this Earth,
And no one should ever question their self-worth.
