Sourcewell is a State of Minnesota local government agency and service cooperative created under the laws of the State of Minnesota (Minnesota Statutes Section 123A.21) that offers cooperative procurement solutions to government entities. Participation is open to federal, state/province, and municipal governmental entities, higher education, K-12 education, nonprofit, tribal government, and other public entities located in the United States and Canada. Sourcewell issued a public solicitation for Skatepark, Bike Park, and Pump Track Solutions with Related Equipment, Accessories, and Services from which Vendor was awarded a contract.

Vendor desires to contract with Sourcewell to provide equipment, products, or services to Sourcewell and the entities that access Sourcewell's cooperative purchasing contracts (Participating Entities).

1. TERM OF CONTRACT

- A. **EFFECTIVE DATE.** This Contract is effective upon the date of the final signature below.
- B. **EXPIRATION DATE AND EXTENSION.** This Contract expires December 28, 2024, unless it is cancelled sooner pursuant to Article 22. This Contract may be extended up to one additional one-year period upon request of Sourcewell and with written agreement by Vendor.
- C. **SURVIVAL OF TERMS.** Articles 11 through 14 survive the expiration or cancellation of this Contract.

2. EQUIPMENT, PRODUCTS, OR SERVICES

- A. **EQUIPMENT, PRODUCTS, OR SERVICES.** Vendor will provide the Equipment, Products, or Services as stated in its Proposal submitted under the Solicitation Number listed above. Vendor's Equipment, Products, or Services Proposal (Proposal) is attached and incorporated into this Contract.

All Equipment and Products provided under this Contract must be new/current model. Vendor may offer close-out or refurbished Equipment or Products if they are clearly indicated in Vendor's product and pricing list. Unless agreed to by the Participating Entities in advance, Equipment or Products must be delivered as operational to the Participating Entity's site.

This Contract offers an indefinite quantity of sales, and while substantial volume is anticipated, sales and sales volume are not guaranteed.

B. **WARRANTY.** Vendor warrants that all Equipment, Products, and Services furnished are free from liens and encumbrances, and are free from defects in design, materials, and workmanship. In addition, Vendor warrants the Equipment, Products, and Services are suitable for and will perform in accordance with the ordinary use for which they are intended. Vendor's dealers and distributors must agree to assist the Participating Entity in reaching a resolution in any dispute over warranty terms with the manufacturer. Any manufacturer's warranty that is effective past the expiration of the Vendor's warranty will be passed on to the Participating Entity.

C. **DEALERS, DISTRIBUTORS, AND/OR RESELLERS.** Upon Contract execution, Vendor will make available to Sourcewell a means to validate or authenticate Vendor's authorized dealers, distributors, and/or resellers relative to the Equipment, Products, and Services related to this Contract. This list may be updated from time-to-time and is incorporated into this Contract by reference. It is the Vendor's responsibility to ensure Sourcewell receives the most current version of this list.

3. PRICING

All Equipment, Products, or Services under this Contract will be priced as stated in Vendor's Proposal.

When providing pricing quotes to Participating Entities, all pricing quoted must reflect a Participating Entity's total cost of acquisition. This means that the quoted cost is for delivered Equipment, Products, and Services that are operational for their intended purpose, and includes all costs to the Participating Entity's requested delivery location.

Regardless of the payment method chosen by the Participating Entity, the total cost associated with any purchase option of the Equipment, Products, or Services must always be disclosed in the pricing quote to the applicable Participating Entity at the time of purchase.

A. **SHIPPING AND SHIPPING COSTS.** All delivered Equipment and Products must be properly packaged. Damaged Equipment and Products may be rejected. If the damage is not readily apparent at the time of delivery, Vendor must permit the Equipment and Products to be returned within a reasonable time at no cost to Sourcewell or its Participating Entities. Participating Entities reserve the right to inspect the Equipment and Products at a reasonable

time after delivery where circumstances or conditions prevent effective inspection of the Equipment and Products at the time of delivery.

Vendor must arrange for and pay for the return shipment on Equipment and Products that arrive in a defective or inoperable condition.

Sourcwell may declare the Vendor in breach of this Contract if the Vendor intentionally delivers substandard or inferior Equipment or Products. In the event of the delivery of nonconforming Equipment and Products, the Participating Entity will notify the Vendor as soon as possible and the Vendor will replace nonconforming Equipment and Products with conforming Equipment and Products that are acceptable to the Participating Entity.

B. SALES TAX. Each Participating Entity is responsible for supplying the Vendor with valid tax-exemption certification(s). When ordering, a Participating Entity must indicate if it is a tax-exempt entity.

C. HOT LIST PRICING. At any time during this Contract, Vendor may offer a specific selection of Equipment, Products, or Services at discounts greater than those listed in the Contract. When Vendor determines it will offer Hot List Pricing, it must be submitted electronically to Sourcwell in a line-item format. Equipment, Products, or Services may be added or removed from the Hot List at any time through a Sourcwell Price and Product Change Form as defined in Article 4 below.

Hot List program and pricing may also be used to discount and liquidate close-out and discontinued Equipment and Products as long as those close-out and discontinued items are clearly identified as such. Current ordering process and administrative fees apply. Hot List Pricing must be published and made available to all Participating Entities.

4. PRODUCT AND PRICING CHANGE REQUESTS

Vendor may request Equipment, Product, or Service changes, additions, or deletions at any time. All requests must be made in writing by submitting a signed Sourcwell Price and Product Change Request Form to the assigned Sourcwell Contract Administrator. This form is available from the assigned Sourcwell Contract Administrator. At a minimum, the request must:

- Identify the applicable Sourcwell contract number;

C. **SPECIALIZED SERVICE REQUIREMENTS.** In the event that the Participating Entity requires service or specialized performance requirements (such as e-commerce specifications, specialized delivery requirements, or other specifications and requirements) not addressed in this Contract, the Participating Entity and the Vendor may enter into a separate, standalone agreement, apart from this Contract. Sourcewell, including its agents and employees, will not be made a party to a claim for breach of such agreement.

The Vendor will submit payment to Sourcewell for the percentage of administrative fee stated in the Proposal multiplied by the total sales of all Equipment, Products, and Services purchased by Participating Entities under this Contract during each calendar quarter. Payments should note the Vendor's name and Sourcewell-assigned contract number in the memo; and must be mailed to the address above "Attn: Accounts Receivable" or remitted electronically to Sourcewell's banking institution per Sourcewell's Finance department instructions. 6. *Network Security and Privacy Liability Insurance*. During the term of this Contract, Vendor will maintain coverage for network security and privacy liability. The coverage may be endorsed on another form of liability coverage or written on a standalone policy. The insurance must cover claims which may arise from failure of Vendor's security resulting in, but not limited to, computer attacks, unauthorized access, disclosure of not public data – including but not limited to, confidential or private information, transmission of a computer virus, or denial of service.

Minimum limits:

\$2,000,000 per occurrence

\$2,000,000 annual aggregate

Failure of Vendor to maintain the required insurance will constitute a material breach entitling Sourcewell to immediately terminate this Contract for default.

B. CERTIFICATES OF INSURANCE. Prior to commencing under this Contract, Vendor must furnish to Sourcewell a certificate of insurance, as evidence of the insurance required under this Contract. Prior to expiration of the policy(ies), renewal certificates must be mailed to Sourcewell, 202 12th Street Northeast, P.O. Failure to request certificates of insurance by Sourcewell, or failure of Vendor to provide certificates of insurance, in no way limits or relieves Vendor of its duties and responsibilities in this Contract.

C. ADDITIONAL INSURED ENDORSEMENT AND PRIMARY AND NON-CONTRIBUTORY INSURANCE CLAUSE. Vendor agrees to list Sourcewell and its Participating Entities, including their officers, agents, and employees, as an additional insured under the Vendor's commercial

general liability insurance policy with respect to liability arising out of activities, "operations," or "work" performed by or on behalf of Vendor, and products and completed operations of Vendor. The policy provision(s) or endorsement(s) must further provide that coverage is primary and not excess over or contributory with any other valid, applicable, and collectible insurance or self-insurance in force for the additional insureds.

D. **WAIVER OF SUBROGATION.** Vendor waives and must require (by endorsement or otherwise) all its insurers to waive subrogation rights against Sourcewell and other additional insureds for losses paid under the insurance policies required by this Contract or other insurance applicable to the Vendor or its subcontractors. The waiver must apply to all deductibles and/or self-insured retentions applicable to the required or any other insurance maintained by the Vendor or its subcontractors. Where permitted by law, Vendor must require similar written express waivers of subrogation and insurance clauses from each of its subcontractors.

E. **UMBRELLA/EXCESS LIABILITY/SELF-INSURED RETENTION.** The limits required by this Contract can be met by either providing a primary policy or in combination with umbrella/excess liability policy(ies), or self-insured retention.

20. BANKRUPTCY, DEBARMENT, OR SUSPENSION CERTIFICATION

Vendor certifies and warrants that it is not in bankruptcy or that it has previously disclosed in writing certain information to Sourcewell related to bankruptcy actions. If at any time during this Contract Vendor declares bankruptcy, Vendor must immediately notify Sourcewell in writing.

Vendor certifies and warrants that neither it nor its principals are presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from programs operated by the State of Minnesota; the United States federal government or the Canadian government, as applicable; or any Participating Entity. Vendor certifies and warrants that neither it nor its principals have been convicted of a criminal offense related to the subject matter of this Contract. Vendor further warrants that it will provide immediate written notice to Sourcewell if this certification changes at any time.

21. PROVISIONS FOR NON-UNITED STATES FEDERAL ENTITY PROCUREMENTS UNDER UNITED STATES FEDERAL AWARDS OR OTHER AWARDS

Participating Entities that use United States federal grant or FEMA funds to purchase goods or services from this Contract may be subject to additional requirements including the procurement standards of the Uniform Administrative Requirements, Cost Principles and Audit Requirements for Federal Awards, 2 C.F.R. § 200. Participating Entities may also require additional requirements based on specific funding specifications. Within this Article, all references to “federal” should be interpreted to mean the United States federal government. The following list only applies when a Participating Entity accesses Vendor’s Equipment, Products, or Services with United States federal funds.

A. **EQUAL EMPLOYMENT OPPORTUNITY.** Except as otherwise provided under 41 C.F.R. § 60, all contracts that meet the definition of “federally assisted construction contract” in 41 C.F.R. § 60-1.3 must include the equal opportunity clause provided under 41 C.F.R. §60-1.4(b), in accordance with Executive Order 11246, “Equal Employment Opportunity” (30 FR 12319, 12935, 3 C.F.R. §, 1964-1965 Comp., p. 339), as amended by Executive Order 11375, “Amending Executive Order 11246 Relating to Equal Employment Opportunity,” and implementing regulations at 41 C.F.R. § 60, “Office of Federal Contract Compliance Programs, Equal Employment Opportunity, Department of Labor.” The equal opportunity clause is incorporated herein by reference.

B. **DAVIS-BACON ACT, AS AMENDED (40 U.S.C. § 3141-3148).** When required by federal program legislation, all prime construction contracts in excess of \$2,000 awarded by non-federal entities must include a provision for compliance with the Davis-Bacon Act (40 U.S.C. § 3141-3144, and 3146-3148) as supplemented by Department of Labor regulations (29 C.F.R. § 5, “Labor Standards Provisions Applicable to Contracts Covering Federally Financed and Assisted Construction”). In accordance with the statute, contractors must be required to pay wages to laborers and mechanics at a rate not less than the prevailing wages specified in a wage determination made by the Secretary of Labor. In addition, contractors must be required to pay wages not less than once a week. The non-federal entity must place a copy of the current prevailing wage determination issued by the Department of Labor in each solicitation. The decision to award a contract or subcontract must be conditioned upon the acceptance of the wage determination. The non-federal entity must report all suspected or reported violations to the federal awarding agency. The contracts must also include a provision for compliance with the Copeland “Anti-Kickback” Act (40 U.S.C. § 3145), as supplemented by Department of Labor regulations (29 C.F.R. § 3, “Contractors and Subcontractors on Public Building or Public Work Financed in Whole or in Part by Loans or Grants from the United States”). The Act provides that each contractor or subrecipient must be prohibited from inducing, by any means, any person employed in the construction, completion, or repair of public work, to give up any part of the compensation to which he or she is otherwise entitled. The non-federal entity must report

all suspected or reported violations to the federal awarding agency. Vendor must be in compliance with all applicable Davis-Bacon Act provisions.

C. CONTRACT WORK HOURS AND SAFETY STANDARDS ACT (40 U.S.C. § 3701-3708). Where applicable, all contracts awarded by the non-federal entity in excess of \$100,000 that involve the employment of mechanics or laborers must include a provision for compliance with 40 U.S.C. §§ 3702 and 3704, as supplemented by Department of Labor regulations (29 C.F.R. § 5). Under 40 U.S.C. § 3702 of the Act, each contractor must be required to compute the wages of every mechanic and laborer on the basis of a standard work week of 40 hours. Work in excess of the standard work week is permissible provided that the worker is compensated at a rate of not less than one and a half times the basic rate of pay for all hours worked in excess of 40 hours in the work week. The requirements of 40 U.S.C. § 3704 are applicable to construction work and provide that no laborer or mechanic must be required to work in surroundings or under working conditions which are unsanitary, hazardous or dangerous. These requirements do not apply to the purchases of supplies or materials or articles ordinarily available on the open market, or contracts for transportation or transmission of intelligence. This provision is hereby incorporated by reference into this Contract. Vendor certifies that during the term of an award for all contracts by Sourcewell resulting from this procurement process, Vendor must comply with applicable requirements as referenced above.

D. RIGHTS TO INVENTIONS MADE UNDER A CONTRACT OR AGREEMENT. If the federal award meets the definition of “funding agreement” under 37 C.F.R. § 401.2(a) and the recipient or subrecipient wishes to enter into a contract with a small business firm or nonprofit organization regarding the substitution of parties, assignment or performance of experimental, developmental, or research work under that “funding agreement,” the recipient or subrecipient must comply with the requirements of 37 C.F.R. § 401, “Rights to Inventions Made by Nonprofit Organizations and Small Business Firms Under Government Grants, Contracts and Cooperative Agreements,” and any implementing regulations issued by the awarding agency. Vendor certifies that during the term of an award for all contracts by Sourcewell resulting from this procurement process, Vendor must comply with applicable requirements as referenced above.

E. CLEAN AIR ACT (42 U.S.C. § 7401-7671Q.) AND THE FEDERAL WATER POLLUTION CONTROL ACT (33 U.S.C. § 1251-1387). Violations must be reported to the Federal awarding agency and the Regional Office of the Environmental Protection Agency (EPA). Vendor certifies that during the term of this Contract will comply with applicable requirements as referenced above.

F. DEBARMENT AND SUSPENSION (EXECUTIVE ORDERS 12549 AND 12689). A contract award (see 2 C.F.R. § 180.220) must not be made to parties listed on the government wide exclusions in the System for Award Management (SAM), in accordance with the OMB guidelines at 2 C.F.R.

§180 that implement Executive Orders 12549 (3 C.F.R. § 1986 Comp., p. 189) and 12689 (3 C.F.R. § 1989 Comp., p. 235), “Debarment and Suspension.” SAM Exclusions contains the names of parties debarred, suspended, or otherwise excluded by agencies, as well as parties declared ineligible under statutory or regulatory authority other than Executive Order 12549. Such disclosures are forwarded from tier to tier up to the non-federal award. Vendors must file all certifications and disclosures required by, and otherwise comply with, the Byrd Anti-Lobbying Amendment (31 U.S.C. § 1352).

H. RECORD RETENTION REQUIREMENTS. To the extent applicable, Vendor must comply with the record retention requirements detailed in 2 C.F.R. § 200.333. The Vendor further certifies that it will retain all records as required by 2 C.F.R. § 200.333 for a period of 3 years after grantees or subgrantees submit final expenditure reports or quarterly or annual financial reports, as applicable, and all other pending matters are closed.

I. ENERGY POLICY AND CONSERVATION ACT COMPLIANCE. To the extent applicable, Vendor must comply with the mandatory standards and policies relating to energy efficiency which are contained in the state energy conservation plan issued in compliance with the Energy Policy and Conservation Act.

K. ACCESS TO RECORDS (2 C.F.R. § 200.336). Vendor agrees that duly authorized representatives of a federal agency must have access to any books, documents, papers and records of Vendor that are directly pertinent to Vendor’s discharge of its obligations under this Contract for the purpose of making audits, examinations, excerpts, and transcriptions. The right also includes timely and reasonable access to Vendor’s personnel for the purpose of interview and discussion relating to such documents.

A non-federal entity that is a state agency or agency of a political subdivision of a state and its contractors must comply with Section 6002 of the Solid Waste Disposal Act, as amended by the Resource Conservation and Recovery Act. The requirements of Section 6002 include procuring only items designated in guidelines of the Environmental Protection Agency (EPA) at 40 C.F.R. § 247 that contain the highest percentage of recovered materials practicable, consistent with maintaining a satisfactory level of competition, where the purchase price of the item exceeds \$10,000 or the value of the quantity acquired during the preceding fiscal year exceeded \$10,000; procuring solid waste management services in a manner that maximizes energy and resource recovery; and establishing an affirmative procurement program for procurement of recovered materials identified in the EPA guidelines.

7	Provide a brief history of your company, including your company's core values, business philosophy, and industry longevity related to the requested equipment, products or services.	American Ramp Company is the premier global action sports development company. Serving municipalities, camps, and private individuals throughout the world with turnkey design, manufacturing and construction services. At American Ramp Company we strive to provide excellent customer service, quality equipment and products to our valued customers. American Ramp Company is the result of one skateboarder's dream to do what he loved. The son of missionaries growing up in a remote part of Southeast Asia, ARC founder and president, Nathan Bemo was always looking for a place to skateboard, and if he could not find a place, he made a place. Starting American Ramp Company out of his garage 23 years ago, it is Nathans passion for skateboard and action sports that has positioned ARC as a world class designer and builder of action sports facilities. To this day, Nathan is very active in our design department simply because he loves designing obstacles and park layouts that skaters and bikers want to ride. ARC is the only action sports contractor in the world that offers every skate and bike park build method. This puts ARC in a unique position to approach our customers as experts with solutions and not as a salesperson that only has one agenda to push. Our belief is that every community has users who are drawn to individual focused action sports over team sports. It is our mission to be a resource to any community who makes a commitment to invest in safe and fun infrastructure for skaters and bikers. For more than 20 years, we have built and maintained constant focus on enriching the life of all end users of our parks by providing high end parks that entire families can enjoy together. We employ the most talented and qualified individuals in the business who are each dedicated to producing the absolute best product for our customers. At American Ramp Company we are a family. We normally attend every state's park and recreation conference and tradeshow to make ourselves available to our current customers and to develop new relationships. This past year that has proven difficult, so we have attended the ones we are able to attend and have had hundreds of meetings with our clients virtually. On a normal basis our sales team spend approximately 50% of their time on the road meeting with our clients to advance the progress of their projects.
24	Dealer network or other distribution methods.	We have non-exclusive relationships with many dealers who have customers that are interest in our services and products. Our dealers will ask that we assist them in providing action sports solutions to their customers since those recreation segments are outside of their depth. Most of these dealer relationships are with Play Power dealers and reps which make the Sourcewell conversation very clean since they too carry a Sourcewell contract. Sales through these dealer relationships represent less than 5% of our total sales as most of our projects are worked factory direct through our captive sales force.
25	Service force.	Customer service and warranty service is all handled completely in our office by our customer support and installation staff. The parks and recreation market is a very connected one so we understand the importance of customer experience and want to control every aspect of that directly. We have more than 30 trained equipment installers, onsite construction crew members and maintenance staff to be able to deliver the highest quality parks to any customer. Our dedicated maintenance staff has the ability to handle warranty claims and provide ongoing maintenance options to our customers on a very quick turnaround because it is all handled directly from our corporate headquarters.
26	Describe in detail the process and procedure of your customer service program, if applicable. Include your response-time capabilities and commitments, as well as any incentives that help your providers meet your stated service goals or promises.	While we are working on a project, we assign a Project Manager that is directly responsible for continuing communication on a regular basis with the customer. We strive to make sure that we are providing them with whatever they need to continue success while moving to completion of their project. We have recently implemented the use of Buildertrend Software that allows us to give the customer access to daily reports, photographs, weather reports, schedule and many other items to ensure they are constantly informed of what is happening on their project. Once a project is completed we take a proactive approach to the customer and project installation by contacting them at least twice a year to check in and make sure that everything is going well and that they are happy with the work that we did. This approach serves two purposes, customer satisfaction, but also helps ARC maintain relationships for future work with our clients.
27	Describe your ability and willingness to provide your products and services to Sourcewell participating entities in the United States.	American Ramp Company has been actively utilizing a Sourcewell contract for more about 10 years. Throughout that time, we have served clients in 35 states with sales over Ten million since our contract was originally awarded. We have made it our goal to double that figure over the next contract life and reach more than Twenty Million in the next four years. ARC believes that Sourcewell purchasing vehicle for the customers we serve which is why we actively promote our Sourcewell with all new and existing customers and display that we hold a current Sourcewell contract at all of tradeshow we attend in the United States and Canada.
28	Describe your ability and willingness to provide your products and services to Sourcewell participating entities in Canada.	Our Canadian sales team has been excited about the headway that Sourcewell has been making towards the use of the contract in the Canadian market. We have an office in Ontario with Canadian sales and installation team members. Our team is willing to help the contract propagate in Canada and educate all of the customers and contacts that we have on the value of using the Sourcewell contract.
29	Identify any geographic areas of the United States or Canada that you will NOT be fully serving through the proposed contract.	There are no areas in the United States or Canada that American Ramp Company will not fully be able to serve through our Sourcewell contract.

30	Identify any Sourcewell participating entity sectors (i.e., government, education, not-for-profit) that you will NOT be fully serving through the proposed contract. Explain in detail. For example, does your company have only a regional presence, or do other cooperative purchasing contracts limit your ability to promote another contract?	N/A - We will fully service Sourcewell members in every sector.	*
31	Define any specific contract requirements or restrictions that would apply to our participating entities in Hawaii and Alaska and in US Territories.	There would be no restrictions. We have served customers in Hawaii, Alaska and US Territories throughout our history. We also serve Canadian customers located in remote regions, military bases, International municipalities, and dealers located anywhere in the world. Shipping terms and costs may vary based on locations. We will provide a quote for freight and delivery time at the time of estimate to the customer.	*

Table 7: Marketing Plan

Line Item	Question	Response *
32	Describe your marketing strategy for promoting this contract opportunity. Upload representative samples of your marketing materials (if applicable) in the document upload section of your response.	Every project quote that we send out will have verbiage encouraging that the purchase is made through the Sourcewell contract. We will have information and links on our customer facing digital marketing materials like our website as well as include that we hold a Sourcewell contract on industry publications. Often, we do continuing education sessions and lunch and learns where we include information about procurement and specifically how using Sourcewell is the most efficient method for project procurement. We have attached some examples of marketing material as well as tradeshow handouts and catalogs that show that we carry a Sourcewell contract.
33	Describe your use of technology and digital data (e.g., social media, metadata usage) to enhance marketing effectiveness.	American Ramp Company uses technology and digital data to enhance marketing effectiveness in the following ways: Website: Our dedicated marketing team works to ensure that our website remains up to date and relevant to customer needs. We analyze what the customers in our industry are searching for and use data and metadata to steer our messaging both in content and delivery method. Social Media: American Ramp Company is currently on Facebook, Instagram and You Tube. Our goal on these platforms is to provide our customers with information on our current parks that will add value in seeing where we are building and what our finished products look like. Social media is also a fun and interesting way to share with others the joy that the end users are being provided because of the different products and services we bring to communities. E-Blast: American Ramp Company frequently sends out E-blasts to all surrounding customers when we have a new park opening, are attending a local tradeshow, introducing a new product, and many other reasons. We feel that E-blasts are a successful email marketing tool that can raise awareness of our business and products to keep us on the minds of existing and potential customers.
34	In your view, what is Sourcewell's role in promoting contracts arising out of this RFP? How will you integrate a Sourcewell-awarded contract into your sales process?	We anticipate that Sourcewell will continue to play a strong role in ensuring their members are aware of American Ramp Company's awarded contract and will navigate members to our Sourcewell Awarded Vendor page which will provide them all of the details on our contract award and contact information. Sourcewell has already played a very active role in promoting our previous contracts by assisting our sales division on conference calls to help explain the many benefits and ease of contracting through Sourcewell. They have been very active in helping our sales force answer any questions that our customers who haven't become members of Sourcewell that they may have which makes it much more successful in getting them to become new Sourcewell members. We have already integrated Sourcewell into our sales process by developing a marketing strategy that promotes our contract among members. We will continue to encourage Sourcewell members and nonmembers the advantages of purchasing through Sourcewell in an effort to save them valuable time and money.
35	Are your products or services available through an e-procurement ordering process? If so, describe your e-procurement system and how governmental and educational customers have used it.	American Ramp Company does not offer online sales through our website because of the nature of the products and services we provide. Most of our products and services require initial legwork including design which would not be effectively performed through online ordering services. We work with our customers and their communities to develop designs and then supply them with the best possible end product based on the feedback from the customer and their end users. However, we work with our customers in any way needed to make the procurement process meet their needs. We offer procurement through many various forms including purchase orders, credit cards and P-Cards. Because we work with many government entities, all these forms of procurement are very common to us. There is no additional cost to Sourcewell members for using this process.

Table 8: Value-Added Attributes

Line Item	Question	Response *
-----------	----------	------------

36	Describe any product, equipment, maintenance, or operator training programs that you offer to Sourcewell participating entities. Include details, such as whether training is standard or optional, who provides training, and any costs that apply.	At the time of project installation, we offer an opportunity for our customer to have staff trained on equipment maintenance by our installation crew lead. This is a service that we provide at no extra cost to the customer.	*
37	Describe any technological advances that your proposed products or services offer.	Our design and engineering team work to stay of the cutting edge of the action sports industry when it comes to the development of new products and facilities. We also look for ways to integrate technology and multimedia into the park experience. For example, we have developed the ability for a facility user to access a "How to use this equipment" video while at the park by scanning a QR code on interpretive signage.	*
38	Describe any "green" initiatives that relate to your company or to your products or services, and include a list of the certifying agency for each.	At American Ramp Company we take pride in our commitment to providing the highest quality projects possible. As a leader in the action sports industry we recognize that it is our responsibility to set an example as an environmentally conscientious company. We have invested considerable time and resources identifying aspects of our business that we can alter in order to maximize our customer satisfaction while minimizing our environmental impact. American Ramp Company has always looked for ways to decrease our carbon footprint. We hold firm to the belief that focusing on building the highest quality, longest lasting skateparks will insure minimum environmental impact. By building skateparks right the first time we guarantee resources are not needlessly being used to replace or repair. Our industry did not have baseline environmental standards and for that reason we took the lead to develop initiatives and with one other skatepark company founded Green Skate. As one of the founding members of Green Skate we have adopted a policy to evaluate environmental impact of every decision we make. Green Skate is an initiative set forth to create baseline standards for sustainability in the production of skateparks. Below are a few of the critical objectives of Green Skate. Green Skate Initiatives • Use recycled and recyclable productions – Utilize resources that are recyclable and/or composed of recycled materials • Practice Lean Manufacturing – Identify any areas of waste and excess. Maximize efficiency and accuracy of work force, energy and materials. Manufacture equipment when ordered so energy and materials are not being wasted on inventory storage. • Seek Environmentally Sensitive Partners and Suppliers – Team up with vendors and business partners that are taking their own steps to protect our environment and natural resources. We seek out vendors and suppliers that are operationally proximal to avoid trucking raw materials over a long distance. • Employee Culture – Encourage employees to constantly evaluate their work processes and identify areas that can be improved to increase efficiency and environmental sustainability. ARC also employs LEED Accredited individuals that help keep focus on environmental sustainability within the company.	*
39	Identify any third-party issued eco-labels, ratings or certifications that your company has received for the equipment or products included in your Proposal related to energy efficiency or conservation, life-cycle design (cradle-to-cradle), or other green/sustainability factors.	While American Ramp Company does not hold any third-party issued eco-labels, ratings or certifications, all of the steel used in our products are recycled steel. We also utilize recycled concrete when possible as base and fill material in our onsite parks and work with various suppliers of surfacing that utilizes recycled material. American Ramp Company has also recently used Basalt rebar in place of traditional steel rebar on a project that we completed this past year and are looking into utilizing this product more in the future.	*
40	Describe any Women or Minority Business Entity (WMBE), Small Business Entity (SBE), or veteran owned business certifications that your company or hub partners have obtained. Upload documentation of certification (as applicable) in the document upload section of your response.	American Ramp Company is identified as a Small Business Entity (SBE) and does currently hold a State of Missouri Minority Owned Business Enterprise certificate. Please see a copy of this certificate attached to this response.	*

41	What unique attributes does your company, your products, or your services offer to Sourcewell participating entities? What makes your proposed solutions unique in your industry as it applies to Sourcewell participating entities?	American Ramp Company offers turn-key solutions to its customers. Being the only true one stop shop for the Action Sports segment of the recreation industry, we are able to serve our customers at every level of any project. This assistance spans all areas of project development including fundraising, community awareness, and project development. Any time a customer contacts our office during normal business hours someone will answer the phone. Every staff member that answers our phones during the course of the day are trained on asking the proper questions to ensure that they are transferred to the appropriate person to help with whatever they need. This we feel is an added value to our customer service because they get to speak to a live person at the time of their initial call. Because we have had a Sourcewell contract for over 10 years our staff is uniquely prepared to help Sourcewell members, and customers interested in becoming members, navigate the procurement process using the contract.	*

Table 9: Warranty

Describe in detail your manufacturer warranty program, including conditions and requirements to qualify, claims procedure, and overall structure. You may upload representative samples of your warranty materials (if applicable) in the document upload section of your response in addition to responding to the questions below.

Line Item	Question	Response *	
42	Do your warranties cover all products, parts, and labor?	Yes, our warranty typically covers all materials and labor.	*
43	Do your warranties impose usage restrictions or other limitations that adversely affect coverage?	Repairs required due to neglect, abuse, accident, vandalism, use of products other than the intended purpose and acts of nature or God are not warrantied. The warranty does not cover any modifications, additions, or changes to the equipment unless approved in writing by American Ramp Company.	*
44	Do your warranties cover the expense of technicians' travel time and mileage to perform warranty repairs?	Because we have multiple crews that are mobilized throughout the US and Canada, we can very quickly respond to any warranty issues. Since these crews are already in the region, we do not charge our customer for any travel related expenses.	*
45	Are there any geographic regions of the United States or Canada (as applicable) for which you cannot provide a certified technician to perform warranty repairs? How will Sourcewell participating entities in these regions be provided service for warranty repair?	American Ramp Company covers all regions and have crews that can perform warranty work anywhere in the United States and Canada.	*
46	Will you cover warranty service for items made by other manufacturers that are part of your proposal, or are these warranties issues typically passed on to the original equipment manufacturer?	Our warranty extends as applicable to any product or service that is listed under our contract, including any product that we would offer by others.	*
47	What are your proposed exchange and return programs and policies?	An exchange program is not offered, if something is wrong or a customer is unsatisfied with a product our warranty covers that item and we will replace it at no cost to the customer. There is a 30% restocking fee if the customer wants to return a park. All of the shipping and logistics are handled through our office and often carried by our crews.	*
48	Describe any service contract options for the items included in your proposal.	Our products have an industry leading warranty and are manufactured to be as maintenance free as possible. However, we do have an annual maintenance inspection program available to our customers. With the annual maintenance inspection program, we will send out one of our trained supervisors to do a thorough walk through their park and identify any necessary items that should be addressed. If the park is within our warranty timeline, most of these items can be addressed immediately. If work outside of warranty is needed, we can then take all the photo documentation and reports back to our office where our service department will write up a detailed report and provide a quote to make necessary repairs.	*

Table 10: Payment Terms and Financing Options

Line Item	Question	Response *	
49	What are your payment terms (e.g., net 10, net 30)?	We have a wide variety of payment terms depending on the product and/or service we are providing. Because the majority of our projects are very large in nature our terms are 50% at the time of order and 50% upon shipping of the equipment. Most of these projects we work with Net 30 terms. American Ramp Company also performs large inground concrete skateparks and asphalt pump track and generally invoice those using progress billing that we submit to the customer at different project milestones much like most construction projects. American Ramp Company will talk through payment terms with our customers and determine which payment structure works best for them and their project.	*
50	Do you provide leasing or financing options, especially those options that schools and governmental entities may need to use in order to make certain acquisitions?	ARC has partnered with National Cooperative Leasing (NCL) to offer Sourcewell members a complete suite of finance solutions. NCL is a current Sourcewell financing contract holder and is an industry expert in municipal financing solutions. NCL will offer leasing terms from 12-120 months on transactions from \$5,000.00 and up. Traditional leasing and financing programs will be offered along with programs specifically designed for schools and governmental entities including tax-exempt municipal leases and a purchase order only program. There is no ownership, common ownership, or control between ARC and NCL.	*
51	Briefly describe your proposed order process. Include enough detail to support your ability to report quarterly sales to Sourcewell as described in the Contract template. For example, indicate whether your dealer network is included in your response and whether each dealer (or some other entity) will process the Sourcewell participating entities' purchase orders.	Sourcewell members will issue purchase orders directly to American Ramp Company with the Sourcewell contract number included on the PO. American Ramp will then enter the sales as a Sourcewell sale in their sales tracking system, which is used to create, manage and report quarterly to Sourcewell. Our overall order process provides multiple check points so that nothing is missed in the process of our customers placing an order. Each customer works directly with a sales professional from their region. Once they work through what type of equipment, park or services they would like to procure a contract or purchase order and order form are completed. Once that is done so it is entered into our online system with all of the information for each order which then automatically generates an internal email to all department managers. The accounting department immediately enters the job into our online accounting system and the file is sent to our manufacturing department.	*
52	Do you accept the P-card procurement and payment process? If so, is there any additional cost to Sourcewell participating entities for using this process?	Yes, we will work with our customers in any way needed to make the procurement process meet their needs. There is no additional cost to Sourcewell members for using a P-Card.	*

Table 11: Pricing and Delivery

Provide detailed pricing information in the questions that follow below. Keep in mind that reasonable price and product adjustments can be made during the term of an awarded Contract as described in the RFP, the template Contract, and the Sourcewell Price and Product Change Request Form.

Line Item	Question	Response *	
53	Describe your pricing model (e.g., line-item discounts or product-category discounts). Provide detailed pricing data (including standard or list pricing and the Sourcewell discounted price) on all of the items that you want Sourcewell to consider as part of your RFP response. If applicable, provide a SKU for each item in your proposal. Upload your pricing materials (if applicable) in the document upload section of your response.	Each individual component will be listed using line item pricing. All pricing that is being extended to Sourcewell members is factory direct pricing, which means no middleman mark up. This factory direct relationship automatically saves the 20-30% commissions that would typically be applied and added to the price by a 3rd party supplier. In addition to the factory direct pricing ARC will be offering an additional 7% discount off the factory direct pricing, giving Sourcewell members access to pricing lower than any other pricing in market, published or unpublished. Individual Sku's are listed for manufactured components on the attached price list. Onsite construction price line items do not contain sku numbers.	*
54	Quantify the pricing discount represented by the pricing proposal in this response. For example, if the pricing in your response represents a percentage discount from MSRP or list, state the percentage or percentage range.	Most of our customer interaction is factory direct, and this will be the same in the case of a Sourcewell sale. This means that our list price is manufacturer direct pricing and does not have the 30% marked up MSRP when working through a third-party rep agency. That factory direct pricing is then discounted an additional 7% to Sourcewell members giving Sourcewell members the best possible price for our products and services.	*
55	Describe any quantity or volume discounts or rebate programs that you offer.	There are no quantity or volume discounts or rebate programs at the time of this offering.	*
56	Propose a method of facilitating "sourced" products or related services, which may be referred to as "open market" items or "nonstandard options". For example, you may supply such items "at cost" or "at cost plus a percentage," or you may supply a quote for each such request.	Our objective in this RFP response is to provide a turn-key solution by including all conceivable aspects of a skatepark, bike park or pump track project under this contract. Items such as sound dampening material, installation, etc. will have percentage cost pricing. For any components that are not specifically called out in this price list we will provide a quote for the requested service as new needs arise. Because the components to build a skatepark, bike park or pump track vary drastically, it would be virtually impossible to include every non-standard component in our price list. Our price list is meant to be interpreted as "Standard" components meaning that a certain feature may have differing dimensions with a different price.	*
57	Identify any element of the total cost of acquisition that is NOT included in the pricing submitted with your response. This includes all additional charges associated with a purchase that are not directly identified as freight or shipping charges. For example, list costs for items like pre-delivery inspection, installation, set up, mandatory training, or initial inspection. Identify any parties that impose such costs and their relationship to the Proposer.	Our response covers all components typically associated with our projects. The only cost that is not clearly defined in our proposal would be installation costs on projects located within prevailing wage states. In states with prevailing wage laws we do not use the percentage cost pricing method, but rather quote the installation out based on the applicable rate schedule that would apply but only for the installation amount the product price is fixed by the contract.	*
58	If freight, delivery, or shipping is an additional cost to the Sourcewell participating entity, describe in detail the complete freight, shipping, and delivery program.	Once the final design is complete and all components are determined for each project, our shipping department gets multiple competitive rates from our shipping partners. Because we are based in the center of the US and ship a lot of freight, we are able to provide very cost-effective shipping solutions.	*
59	Specifically describe freight, shipping, and delivery terms or programs available for Alaska, Hawaii, Canada, or any offshore delivery.	In the instance of Hawaii and Alaska, we ship to the port and have the products sent by boat. Shipping to most regions of Canada are the same procedure as when we ship within the US. None of these logistics are the responsibility of the customer and are handled directly by our shipping department. These types of shipments are common practice for us as we do a lot of international business.	*
60	Describe any unique distribution and/or delivery methods or options offered in your proposal.	Our team has shipped and installed skate, bike and pump track components in nearly 40 countries and every environment, so unique to us is a relative term. To date we have been able to comply with customer requests in any situation that we have encountered and intend to continue that trend. We don't offer any specifically unique distribution or delivery methods.	*

Table 12: Pricing Offered

Line Item	The Pricing Offered in this Proposal is: *	Comments
61	c. better than the Proposer typically offers to GPOs, cooperative procurement organizations, or state purchasing departments.	

Table 13: Audit and Administrative Fee

Line Item	Question	Response *
62	Specifically describe any self-audit process or program that you plan to employ to verify compliance with your proposed Contract with Sourcewell. This process includes ensuring that Sourcewell participating entities obtain the proper pricing, that the Vendor reports all sales under the Contract each quarter, and that the Vendor remits the proper administrative fee to Sourcewell.	As soon as an order is placed, the first stop that it makes is in our contract managers office. She thoroughly goes through the pricing and verifies everything in accordance with Sourcewell pricing. Once she verifies the pricing, she then places the sale on our internal sales report and includes all information including which purchasing program is used to place the order. She then keeps individual reports for each purchasing program where the data is entered as well. For our current Sourcewell contract, we use the report that was provided to us by Sourcewell to report our sales. At the end of each quarter all sales are double check and verified on the sales report and the administrative fee is issued for the projects that have been completed and paid in full.
63	Identify a proposed administrative fee that you will pay to Sourcewell for facilitating, managing, and promoting the Sourcewell Contract in the event that you are awarded a Contract. This fee is typically calculated as a percentage of Vendor's sales under the Contract or as a per-unit fee; it is not a line-item addition to the Member's cost of goods. (See the RFP and template Contract for additional details.)	Two Percent of gross sales.

Table 14A: Depth and Breadth of Offered Equipment Products and Services

Line Item	Question	Response *
64	Provide a detailed description of the equipment, products, and services that you are offering in your proposal.	American Ramp Company offers everything necessary for design and build services for skateparks, bike parks and pump tracks. American Ramp Company offers pre-cast concrete, modular skatepark equipment (wood, steel, hybrid), bike park equipment, modular pump track equipment, bicycle playground equipment, trail construction, on-site concrete skatepark construction, and on-site construction of asphalt pump tracks. American Ramp Company provides full turn-key service of any type of skate, bike or pump track project including all demolition, excavation, drainage, forming, rebar, shotcrete, flatwork, and much more depending on the project needs. All designs produced by ARC are custom based on what the customer would like, their budget, the site selected as well as community input from meetings and surveys conducted by our design team.
65	Within this RFP category there may be subcategories of solutions. List subcategory titles that best describe your products and services.	The categories listed, Skateparks, Bike Parks and Pumtracks, capture most every type of product/service that we offer.

Table 14B: Depth and Breadth of Offered Equipment Products and Services

69	Design-build services, site assessment, site preparation, installation, maintenance or repair, and warranty programs.	☒ Yes ☐ No	We offer turn-key planning, design, consultation, and everything needed leading up to project construction and during construction we also perform all aspects of the project in house from site work through completion of the project. We also provide facility management, programming and maintenance/repair solely by our staff.	*

Table 15: Industry Specific Questions

Line Item	Question	Response *
70	If you are awarded a contract, provide a few examples of internal metrics that will be tracked to measure whether you are having success with the contract.	Sales Revenue: We track our sales revenue on a monthly, quarterly and annual basis to show whether our sales are increasing/declining to Sourcewell members. This has also been tracked internally since the initial award of our first contract and this information is used internally by our sales team when they are initiating communication with a future customer who is interested in Sourcewell. Number of Sales: American Ramp Company tracks the number of sales with detailed sales reports on a monthly, quarterly and annual bases to track the number of sales to Sourcewell Customers. This has also been tracked internally since the initial award of our first contract and this information is used internally by our sales team when they are initiating communication with a future customer who is interested in Sourcewell. Those are just a couple of examples of how we track to see if we are having success with the contract. If we see our revenue and number of sales drop, we will take the time to identify the problem and take all necessary steps to correct the issue.
71	Describe the methods or techniques that impact the durability or longevity of your product.	Because we self-perform nearly 100% of every aspect of a project, we can make sure that the quality meets our expectation. Our inhouse Director of Engineer and our Quality Control Manger have both been with our company for just shy of 20 years. Every project has 3 levels of quality checks that it goes through before the installation crew arrives onsite. Maintaining an experienced team who understand and maintain a level of excellence has been the key to outputting products that last. In-fact our most popular product comes with a 20-year warranty and we have had installations that are still in use from our first year in business, 23 years ago.
72	Describe any unique advancements offered by your firm, including examples related to product safety, product longevity and life cycle costs.	Our team is always looking for ways to improve our products and processes. This is done with a focus on performance, safety, and aesthetics. For example, we re-engineered both our bike and skatepark product lines in a way that eliminated any fasteners in the riding surface. This change eliminates a potential hazard of a fastener backing out and causing injury, but also gives the product a higher aesthetic value. The removal of this critical maintenance area is also a big benefit to the customer. Another great example is something we recently developed; a special surface fork bike parks called P3 Cycle Surface. This new surfacing solution will dramatically cut down on maintenance for customers while also creating a more consistent and safer riding surface for users.
73	Describe how your offering addresses the needs of user's safety, well-being, and range or level of accessibility?	Our team works directly with clients from the beginning of a project to address the needs and goals identified. A focus for our company is to provide facilities that serve the broadest user group possible. Our passion is in action sports as designers, builders, and users ourselves, so we believe it is our responsibility to make action sports environments that are welcoming, engaging, and inclusive. Whether it is a bike park, skatepark or pump track, we believe getting people outside and active on a consistent basis changes lives, and changing lives helps to change the world.
74	Describe any unique advantage that your product offers in relation to design-build, manufacturing, climate variations, and community aesthetics.	Our company offers a turn-key solution for the planning, design, and construction of Skateparks, Pumptracks and Bike Parks. We feel that we have the most experienced and diversely qualified team in the action sports industry. On top of our experience we have the advantage of executing every aspect of a project inhouse, without the need to outsource. This means we can directly ensure a quality product/project, delivered in an efficient timeframe.

Proposer's exceptions and proposed modifications are subject to review and approval of Sourcewell and will not automatically be included in the contract.

Proposer's Affidavit

PROPOSER AFFIDAVIT AND ASSURANCE OF COMPLIANCE

I certify that I am the authorized representative of the Proposer submitting the foregoing Proposal with the legal authority to bind the Proposer to this Affidavit and Assurance of Compliance:

1. The Proposer is submitting this Proposal under its full and complete legal name, and the Proposer legally exists in good standing in the jurisdiction of its residence.
2. The Proposer warrants that the information provided in this Proposal is true, correct, and reliable for purposes of evaluation for contract award.
3. The Proposer, including any person assisting with the creation of this Proposal, has arrived at this Proposal independently and the Proposal has been created without colluding with any other person, company, or parties that have or will submit a proposal under this solicitation; and the Proposal has in all respects been created fairly without any fraud or dishonesty. The Proposer has not directly or indirectly entered into any agreement or arrangement with any person or business in an effort to influence any part of this solicitation or operations of a resulting contract; and the Proposer has not taken any action in restraint of free trade or competitiveness in connection with this solicitation. Additionally, if Proposer has worked with a consultant on the Proposal, the consultant (an individual or a company) has not assisted any other entity that has submitted or will submit a proposal for this solicitation.
4. To the best of its knowledge and belief, and except as otherwise disclosed in the Proposal, there are no relevant facts or circumstances which could give rise to an organizational conflict of interest. An organizational conflict of interest exists when a vendor has an unfair competitive advantage or the vendor's objectivity in performing the contract is, or might be, impaired.
5. The contents of the Proposal have not been communicated by the Proposer or its employees or agents to any person not an employee or legally authorized agent of the Proposer and will not be communicated to any such persons prior to Due Date of this solicitation.
6. If awarded a contract, the Proposer will provide to Sourcwell Participating Entities the equipment, products, and services in accordance with the terms, conditions, and scope of a resulting contract.
7. The Proposer possesses, or will possess before delivering any equipment, products, or services, all applicable licenses or certifications necessary to deliver such equipment, products, or services under any resulting contract.
8. The Proposer agrees to deliver equipment, products, and services through valid contracts, purchase orders, or means that are acceptable to Sourcwell Members. Unless otherwise agreed to, the Proposer must provide only new and first-quality products and related services to Sourcwell Members under an awarded Contract.
9. The Proposer will comply with all applicable provisions of federal, state, and local laws, regulations, rules, and orders.
10. The Proposer understands that Sourcwell will reject RFP proposals that are marked "confidential" (or "nonpublic," etc.), either substantially or in their entirety. Under Minnesota Statutes Section 13.591, subdivision 4, all proposals are considered nonpublic data until the evaluation is complete and a Contract is awarded. At that point, proposals become public data. Minnesota Statutes Section 13.37 permits only certain narrowly defined data to be considered a "trade secret," and thus nonpublic data under Minnesota's Data Practices Act.
11. Proposer its employees, agents, and subcontractors are not:
 - a. Included on the "Specially Designated Nationals and Blocked Persons" list maintained by the Office of Foreign Assets Control of the United States Department of the Treasury found at: <https://www.treasury.gov/ofac/downloads/sdnlist.pdf>;
 - b. Included on the government-wide exclusions lists in the United States System for Award Management found at: <https://www.sam.gov/portal/3>; or
 - c. Presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from programs operated

by the State of Minnesota; the United States federal government or the Canadian government, as applicable; or any Participating Entity. Vendor certifies and warrants that neither it nor its principals have been convicted of a criminal offense related to the subject matter of this solicitation.

☒ By checking this box I acknowledge that I am bound by the terms of the Proposer's Affidavit, have the legal authority to submit this Proposal on behalf of the Proposer, and that this electronic acknowledgment has the same legal effect, validity, and enforceability as if I had hand signed the Proposal.
