Re: First Lutheran Church allowing construction on church-owned land

We at First Lutheran Church (FLC) have been asked to allow the construction of a building on FLC land for the purpose of housing multiple non-profit to address food insecurity.

After careful concerdiation we at FLC do offer our land for this purpose and fully support its mission and purpose.

On September 29th 2020 a resolution to allow this action was made by the elected members of the FLC Council. This resolution was then put before the entire congregation of FLC at their Annual Meeting. This resolution passed through a unanimous voice vote.

Respectfully,
