
Sec. 94-362. Home occupations.

- (a) *Permit required; permit objective.* The City of Brookings recognizes the need for some citizens to use their place of residence for limited nonresidential activities. However, the city believes that the need to protect the integrity of its residential districts is the primary concern. A zoning and use registration permit and a conditional use permit are the methods used to allow and regulate nonresidential activity within a residential district. The objective of these permits is to allow a limited commercial type activity in a residential district only to an extent that either neighbors or passersby will not be aware of the activity by any outward appearance or may be aware of the occupation because of the existence of a sign or additional traffic. It is therefore necessary to categorize home occupations as no-impact occupations, minor home occupations, and major home occupations. Home occupations are not transferrable to subsequent property owners or occupants.

(b) General Standards:

- (1) Signage: Signage is allowed per Sec. 94-473.
- (2) Sales: Sales are permitted in all categories, provided they comply with inventory limits. In-person sales of goods or services are permitted in the major and minor categories, provided the home occupation complies with the client/customer, traffic, and inventory limitations.
- (3) Dedicated Area: For no-impact and minor home occupations, the use may not exceed 500 square feet of the dwelling's gross floor area. For major home occupations, the use may not exceed 50% of the gross floor area of a single story.
- (4) Allowable Storage: Storage of inventory intended for sale shall not exceed 10% of the permitted home occupation area.
- (5) Compliance with State and Federal Laws: All home occupations shall comply with applicable state and federal regulations, including but not limited to licensing, taxation, health and safety standards, and any industry-specific requirements. The issuance of a permit under this section does not exempt the applicant from obtaining other permits or approvals required by law.

(6) Prohibited Activities:

- a. Use of residential property as a business, in which the business activities are the primary use of the property.
- b. Exterior display, exterior storage or other exterior indication of the home occupation.
- c. Internal alterations or construction of features not customary in a dwelling unit.
- d. Toxic, explosive, flammable, combustible, corrosive, radioactive or other restricted materials are prohibited.
- e. Any process or activity which causes offensive odors, dust, glare, noise, smoke, heat or vibration detectable to the normal senses off the property and any equipment or process which creates visible or audible interference in radio or television receivers.
- f. Employees, clients/customers, or activity that would be visible to adjacent neighbors between the hours of 9 p.m. and 6 a.m.
