Item #5 - Airport Manager's Report –

- Staff recently had a phone conference with Helm's regarding size, price and location of the new SRE Building. Helm's will provide us with an estimate sometime the first or second week of January. They will work through all of the options for size and amenities for this building.
- There is some hay land west of the airport that the airport will receive revenue off of. This will result in just over \$10,000.00 revenue annually. Lease is with David Berndt for 2026. There will also be an option for 2 additional 1-year extensions.
- Snow events have all been easy to deal with, no real issues. Staff would like pilots to give them advanced notice if they need to land at the airport during a snow event. This will allow staff plenty of time to clear snow if necessary.
- Airport Consultant Selection has been complete. Helms and Associates was the only firm to submit a quote.

Item #6 – Next Scheduled Meeting – January 15, 2026

Item #7 - SDSU Report – Bastmeyer commented that they are trying to finish up the semester. They actually have had more flying this year than last year but some operations are at other airports. They just hired 8 new CFI's.
