INVITED GUEST

ACO/Prairie View Care Organization Update

Merkley welcomed Avera representative, Teri Bergeleen, Director of Provider Contracts and ACO Operations to the WebEx. Bergeleen provided an update on the Accountable Care Organization, Prairie View Care Organization. As a recap, Bergeleen noted the ACO focuses on quality of care (outcomes achieved) versus fee for services performed and develops programs to assist providers in how they care for and manage the patient population of those 65 years of age and older on Medicare. In July of 2019, Brookings Health transitioned to the Enhanced Track ACO (Prairie View) and is one of 28 participating organizations included several specialty care providers with approximately 41k attributed lives. As of January 2020 CMS declared the COVID emergency a Public Health Emergency (PHE) and any losses experienced in the shared savings program will be mitigated under the PHE. Strengths of the Accountable Care journey that are having a positive impact on health outcomes include telehealth, 3-day nursing home waiver and Avera@Home Care Transitions especially post COVID to help keep hospital admissions low. Estimates are currently being processed for 2019 and indications look positive for our ACO to receive some level of shared savings.

Bergeleen concluded her update at 6:08 p.m.

EDUCATION

Hyperbaric Oxygen/Wound Care Program

Hillestad presented information regarding Brookings Health System's wound care program and upcoming plans to expand the service utilizing Hyperbaric Oxygen (HBO) therapy. The wound care program is now located in the vacated old OB unit and offered as an outpatient service by registered nurses with specialized training. A typical patient seeking wound care is referred by a physician and has encountered some sort of skin injury. With HBO therapy, patients breathe 100% oxygen while inside a chamber which enhances the body's ability to heal, fight infection and prevent limb amputation. Brookings Health is negotiating a partnership with Restorix Health to assist with the program.
