Discussion on 11.1 Review Contractor's Guide Pertaining to Window Projects

Summary:

The Commission has had discussion over the last three meetings concerning the 11.1 Review process for homeowner window projects. During the July meeting, the Commission reviewed a draft of the Contractor's Guide, specifically related to windows. The window portion was modeled after the exterior electrical, mechanical, and HVAC units criteria based upon location relative to street views for assisting in the review process. Revisions and clarity were completed by Commission members Merriman and Weiss.
